BOARD OF SUPERVISORS MEETING
THIRD MEETING, 2015 SESSION (3)
JANUARY 13, 2015

The Buena Vista County Board of Supervisors met in regular session on Tuesday, January 13, 2015 at 8:30 A.M. in the Boardroom with Chairman Arends presiding, and the following members present: Altena, Huseman, Merten, and Ringgenberg, and with Auditor Susan Lloyd as clerk for the meeting.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Arends, Huseman, Merten, and Ringgenberg. Nays: none. Abstentions: none.

The Board moved their meeting to the Public Meeting Room for the DD #34 Lat 6 hearing.

The Chair opened the Public Hearing on the DD #34 Lat 6 Engineer’s Report for proposed repairs/improvements, with Engineer Brian Blomme, I & S Group, and 16 landowners present. The Auditor confirmed that the notice was published as required. One objection letter was received from Richard & Eloise Obman, and another letter was received from Frank E. Klahs, II, requesting to speak at the public hearing. Both letters will be kept with the DD #34 Lat 6 drainage records. Blomme reviewed the history of DD #34 Lat 6, which is 3.9 miles long, and benefits 11,900 acres in Barnes, Lincoln, and Scott Townships, and serves as the outlet...
for DD #106, DD #76, and DD #91, along with many private tile lines. This drain was cleaned out in 1917, and there have been no major repairs since that time. The channel has been meandering within its banks causing sediment bars to form which in turn forces the flow to undercut the toes of inside slopes causing bank sloughs. Many of the pipes found along this facility appear to be approaching the end of their useful life and should be considered for replacement. There are four bridge crossings, and they provide adequate capacity with no changes to these structures requested by the District. There are no railroad or private crossings traversing the open ditch of DD #34 Lat 6. There is approximately 14,870' of fence that would need to be removed to accommodate a full cleanout of this open ditch. Additional ditch right-of-way easement of 18.83 acres will need to be acquired. There are approximately 310 acres along with adjoining road right-of-way that are within the natural watershed boundary of Lat 6, but have never been assessed for benefit, so there would need to be an annexation. The proposed estimated cost for repairs/cleanout of DD #34 Lat 6, including additional right-of-way costs, annexation, reclassification, and project warrant interest, is $384,328.60, with the average cost per assessed acre (11,886 acres) of $32.33, and the average cost per watershed acre for 10 years is $3.23 per acre. The Chair opened the meeting up to comments or questions from the public. Mel Ripke asked about the Coon River, when it gets full, everything backs up. Blomme commended that there are extreme rains, it isn’t practical to accommodate for those. Arends commented that the Board is trying to get them working as well as they can. Another landowner asked if the ditch won’t just fill in again like the north end did. Blomme said that they try and reseed and the goal is to have 35-40 years of life to the channel. If DD #106 was done in 1980, then we are at 34 years. Motion by Huseman, second by Ringgenberg to adopt the DD #34 Lat 6 repair plan. Carried. Motion by Ringgenberg, second by Altena, to direct the engineer to prepare the necessary plan and specifications, obtain the necessary permits, and proceed toward a bid letting on DD #34 Lat 6. Landowner Daryla Lockwood asked if this would affect the City of Rembrandt, and the answer was yes. Carried. Motion by Ringgenberg, second by Merten, to adopt a Resolution of Necessity for the annexation of additional lands in to DD #34 Lat 6. Carried. Motion by Merten, second by Altena, to initiate acquisition of additional right-of-way for DD #34 Lat 6. Merten asked about the price paid for the right-of-way, and Blomme commented that typically, they pay $650-$700 per acre. Carried. Motion by Altena, second by Huseman, to initiate reclassification proceedings for DD #34 Lat 6. Merten commented that the Board has done this with Lat 2, 5, and 7, and in the past all of DD #34 was charged for repairs. Carried.

The Board reconvened their meeting in the Boardroom.

Joan Spooner, local director of Upper Des Moines Opportunity in Storm Lake, along with area Executive Director UDMO Jamey Whitney, requested $18,000 in funding for FY ‘16, the same as the current fiscal year. Both directors gave detailed information concerning programs within Buena Vista County that the funding would support. They are very grateful for the past support and for the number of families and elderly individuals that have been helped within the county through these programs.

County Attorney Dave Patton informed the Board that Assistant County Attorney Matt Speers is leaving, to take another position at Boone as an assistant County Attorney. Patton is asking for an additional $7,500-$8000 for this year, to increase the current assistant attorney’s salaries. Currently BV County pays assistants between $49,000 and $54,000, and Patton commented that it really should be between $55,000 and $60,000, based on the level of work they do. Patton commented that he has another assistant that is being recruited in a neighboring
County, with 1/3 less population and less crime, and if he accepts the position, he would be receiving a salary of $61,000. Patton commented that his assistants are part-time, however they are working full-time. They are designated part-time so that they can still do family wills, etc, without violating Iowa law. Patton stated that the collection program can support this increase. The urgency is to get someone hired. He has an offer out there, but the individual is currently making $60,000, and states that they are willing to take a cut, but not a drastic cut. Patton currently has 3 assistants. The consensus of the Board was to see how the department budget requests come in, and would support increasing the current and future assistants to be more competitive in salary with other counties.

**Supervisor Meeting Reports:** Merten attended a Rolling Hills Mental Health Region meeting last week, and updated the Board on the proposed budget of the Region. BOARD OF SUPERVISORS MEETING
EIGHTH MEETING, 2015 SESSION (8)
FEBRUARY 3, 2015

The Buena Vista County Board of Supervisors met in special session on Tuesday, February 3, 2015 at 8:30 A.M. in the Boardroom with Chairman Arends presiding, and the following members present: Altena, Huseman, and Merten, and with Auditor Susan Lloyd as clerk for the meeting. Absent: Ringgenberg.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Arends, Altena, Huseman, and Merten. Nays: none. Abstentions: none.

Auditor Susan Lloyd presented the first draft of the County’s FY’16 budget for the Board’s review.

CEO Dawn Mentzer, Rolling Hills Region, presented her quarterly report. Mentzer has budgeted a FY’16 budget of $2,855,507, with revenue coming from the member counties to the Region of $35 per capita, totaling $3,567,972. Mentzer updated the Board on the ID waiver waiting list, managed care, and task forces update.

Court Administrator Leesa McNeil presented a request for the Court to be able to use the Public Meeting Room for Family Drug Court on the 1st and 3rd Wednesdays of each month. The Board asked if there weren’t other rooms available on the 2nd floor, and McNeil stated that the room on the 2nd floor are almost always in use. The Board will take the request under advisement.

The Chairman stayed to visit with Court Administrator McNeil while the remaining Board Members moved the meeting to the Public Meeting Room for the DD #106 Public Hearing.

The Vice-Chair opened the Public Hearing, at 10:20 a.m., on the DD #106 Engineer’s Report for proposed repairs/improvements, with Engineer Brian Blomme, I & S Group, 10 landowners and 1 media present. (Arends came back to the meeting at 10:25) The Auditor confirmed that the notice was published as required. Letters were received from Linda Jane (McKibben) Boettcher, Randy McKibben, Karla J. McKibben Fegley, and Marianne Colburn Young, all objecting to the project. All of the objection letters will be kept with the DD #106 drainage records. Blomme reviewed the history of the District and stated that the spoil banks no longer exist. Blomme mentioned that the Board had an informal hearing previously to determine
if landowners would be in favor of an improvement to the district. At the time of the informal hearing, the landowners were against an improvement, so the Board authorized the Engineer to proceed with a report for proposed repairs to the District. The cost of the improvement would have been an additional $52,000 over the repair estimate, bringing the total to $189,600. DD #106 consists of approximately 11,670 acres. The District was established with a Main Open Ditch, and open ditch as part of Lateral #32, and 60 additional tile lateral facilities. The watershed is divided into a northern and southern portion. The northern portion utilizes the Main Open Ditch and outlets to the open ditch of DD #34, Lat 6, and the lands of the southern portion outlet through the open ditch of Lateral #32 to Lateral #4 of DD #34. The proposed repairs outlined in this report will restore the original drainage capacity of the Main Open Ditch. The lands within the northern portion of the watershed that will receive benefit from this work will be assessed for the repairs. DD #106 has not been cleaned out since 1985. The open ditch facility of DD #106 is traversed by 2 bridge crossings, which provide adequate capacity with no changes to these structures requested by the District. There are no railroad or private crossings traversing DD #106. There is approximately 5,330’ of fence that needs to be removed to accommodate the open ditch cleanout project. Additional easements along the entire length of the ditch is recommended to provide a uniform 100’ right-of-way. Some of the land adjacent to the open ditch of DD #106 has been seeded down under the USDA Buffer Strip Program, so landowners must request a waiver from the USDA Farm Service Agency County Committee. There are approximately 1,044 acres of land along with adjoining road right-of-way within the northern portion of the watershed that are recommended for annexation, which included 41 acres within the City of Rembrandt. There is approximately 303 acres of land along with adjoining road right-of-way within the southern portion of the watershed that drain to the facilities of the District but are not assessed. The estimated cost of the repairs, including additional easements, annexation, reclassification, and warrant interest is $310,859.70, with an average cost per watershed acre (7,917 acres) of $39.26 and the average cost for 10 years of $3.93. The Board opened the meeting up to questions from landowners. Bill Chindlund asked how many miles would be done and also how much it would help when there are heavy rains. Blomme stated that approximately 6 miles would be done, and that they are not going to help when there is a catastrophic even with several inches of rain. The district was established for 2”-3” rains. Randy McKibben commented that another waterway was put in Section 3, without the blessings of the County. Blomme will check in to that. A question came up as to what side the spoil would be placed. Blomme stated that they would be on the field side, but they need slopes on both sides, so he stated that they could work with a particular landowner on where the spoil would be placed. Merten commented that he has received phone calls and letters opposed to the repair project. Merten informed the landowners that the County could hold off on the repairs at this time, and go forward with the reclassification. Blomme mentioned that the Engineer’s Report is good for 10 years, so it could be picked up again at a later date, if the landowners were ready for the repairs. Randy McKibben stated that he wants to know the cost, and stated that he talked with Attorney Jim Hudson, and was told that the County could authorize a pre-construction reclassification. The consensus of the landowners were in favor of a pre-construction reclassification. Motion by Altena, second by Huseman, to close the Public Hearing. Carried. Motion by Merten, second by Altena, to direct the Engineer to move forward with a pre-construction reclassification on the Main Open Ditch of DD #106. Carried. Blomme mentioned that there would not be a formal notice sent out of the next meeting. The Board will continue this Public Hearing on March 10, 2015, at 10:00 a.m. in the Public Meeting Room.

The Board proceeded back to the Boardroom to continue their meeting.
Mandi Comer, Account Manager of Delta Dental, presented the 2015 renewal executive summary, showing the County’s utilization data and benefit comparison.

Motion by Huseman, second by Altena, to approve the minutes of 1/27, as printed, and the following reports: January 27 Jt. Drainage minutes of the open session of Calhoun, Sac, and BV County. Carried.

Motion by Merten, second by Altena, to allow the Court to be able to reserve the public meeting room a month in advance, when no rooms are available upstairs, with the understanding they can be bumped if something else comes up, and to follow all other rules of public meeting room use. Carried.

Motion by Arends, second by Merten, to appoint Becki Drahota, Ron Haroldson and Bill Lanphere to the Judicial Magistrate Appointing Commission for 6-yr terms expiring 12/31/2019.

Motion by Huseman, second by Altena to authorize the Auditor to send out an RFP for audit services for FY’15, FY’16, and FY’17. Carried.

Merten updated the Board on a possible 28E Agreement providing support from Sac, Calhoun, and BV Counties in matters concerning the pending lawsuit with the Des Moines Water Works. The Sac County Drainage Attorney is preparing a 28E Agreement for BV, Calhoun, and Sac Counties.

Motion by Huseman, second by Altena, to appoint Dale Arends and Paul Merten as the Board’s representative to attend the Iowa Corn Growers meeting on February 6, 2016. Carried.

Motion by Altena, second by Huseman, to appoint Dale Arends and Paul Merten as the Board’s representative to attend a meeting with the Des Moines Water Works Board of Directors when a meeting is scheduled. Carried.

Merten commented that the drainage attorneys for BV, Sac, and Calhoun Counties have sent out RFPs to firms in the Des Moines area, asking for rate charges, in case the Des Moines Water Works suit goes to Federal Court, as it would be a multi-year process.

There being no further business, motion by Merten, second by Arends, to adjourn the meeting at 1:52 p.m. until Tuesday, February 10 at 8:30 a.m. for a regular session.

Absent: Altena and Ringgenberg.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Arends, Huseman, and Merten. Nays: none. Abstentions: none.

Carried.

Motion by Merten, second by Huseman, to approve final estimate payment on Project #L-C-F(5)--73-11, the box culvert between Sections 4/5 of Elk Township, to Midwest Contracting, LLC, Marshall, MN, in the amount of $5,075.30, with the total project cost of $169,176.52, which is 100.05% of the original contract. Carried.

Motion by Huseman, second by Merten, to approve and authorize the Chair to sign the gravel crushing proposal of Mobile Crushing & Recycling, Inc., Otho, IA, for 75,000 tons of gravel from the Whitney Pit, at a cost of $2.85/ton, which also includes scalping off 8-10% sand to be used for icing. Carried.

Engineer Jon Ites has met with a representative from RAGBRAI, and they have been contacted by local residents to change the route leaving Storm Lake, so they don’t go past the sewage treatment plant. Residents are requesting to leave Storm Lake on C49 and then M53. Ites informed the Board that if the route is changed, it will cost $25,000-$30,000 to do the slurry work on C49. Merten commented that he would like to see the route left the way it was originally planned, going past the sewage treatment plant. Ites asked the Chairman to contact the Storm Lake Mayor to see what their thought is about the route.

Engineer Jon Ites discussed the Dakota Access Pipeline and reviewed several questions that need to be addressed. The Engineer’s Association did ask the IDOT for a common permit, common maintenance agreements, and common agreements on driveways. The Engineer’s Association has met, and are still waiting for information from the Iowa Utilities Board, as to what is reimbursable, when it will be reimbursed, they need to see the plans, and they need information regarding county inspectors.

Engineer Ites informed the Board that his final date of employment will be June 12, 2015, and was reminding the Board they need to start finding his replacement.
The time arrived for the discussion on salaries. The Chairman asked the Auditor what the fund balances looked like after changes had been made to the FY’16 proposed budget. The Auditor informed the Board that there are some additional items that have not been addressed in the next fiscal year budget, such as the amount approved for I & S Group to prepare a GIS drainage layer of $15,000, and whether to include an amount for legal fees for the Des Moines Water Works lawsuit. Engineer Ites mentioned that something should be included for a county inspector for the Dakota Pipeline project. The Compensation Board had recommended a 4% increase in wages for the Attorney, Auditor, Recorder, Supervisor, and Treasurer, and reaffirmed the longevity schedule for all elected officials, and also recommended an additional $1,000 for the Board Chairman. Merten commented that there are bigger issues coming in the next two years. If changes were made to the health insurance, that would help the Supplemental Fund. Huseman commented that he still likes going with the 3% increases that were budgeted for.

Motion by Merten, second by Altena, to approve the minutes of 2/10, as printed, and the following reports: January Clerk of Court Report of Fees Collected, February 9 Zoning Commission minutes, January NWIPDC Planning Council minutes. Carried.

The Chairman opened the public hearing on the 1st reading of Ordinance 6.2A-23, the rezoning request of Ag Partners, from Agricultural (A-1) to Commercial (C-1), in Section 14 of Nokomis Township, with Env Health/Zoning Director Kim Johnson, Attorney Phil Redenbaugh-representing Ag Partners, Jared Bruggman and Brian Nepple-Ag Partners, Dennis Launderville, Mike Pedersen, Pat Stokes, Dave Mortensen, and 1 media present. Ag Partners would like to move the anhydrous tanks from their present location to the country. Env Health/Zoning Director Kim Johnson informed the Board that the Zoning Board had met on February 9, and recommended approval of Ag Partners request. Stokes commented that she realizes that the tank needs to be moved from town, and the train tracks, but hopes that all safety measures, the scale, water supply, lighting, and fencing, be in place before the tanks are moved. Mortensen asked where the water lines would be put in, since the ditches are full. Stokes commented that she and Mortensen have their own private water lines. Redenbaugh, urged the Board to take action and approve the rezoning request. Redenbaugh commented that it is not an economic benefit for Ag Partners to move the tank, but a safety measure to move it from the high traffic area, Hwy 7, and the railroad tracks. It is safer in the country, and will be fenced with a 6’ fence and the state of the art safety features. Pedersen lives across the road, and asked for compensation since the value of his property will go down. Redenbaugh stated that the property north is already commercial and the wind towers are commercial, and doesn’t believe that the value will go down. Water would be brought in, which would increase the benefit. Pedersen is not looking at rural water, has his own well, and asked if it would affect what could be placed on his land. Johnson commented that confinements that may be built, already have setbacks from existing commercial property. Launderville commented that he already rents part of his property to Ag partners for storing their pig tanks. Merten commented that you can’t determine when and if something is going to happen, and stated that if Ag Partners wants to move this to the country, and make it safer, he is in favor of the move. Ringgenberg commented that this is the first of three readings, so there is time to do more research. Arends commented that the important thing is safety. Ag Partners commented that they currently have a Community Center, a chiropractor office, and greenhouse close by now. Motion by Ringgenberg, second by Altena, to close the public hearing. Carried. Motion by Merten, second by Huseman, to approve the 1st Reading of Ordinance 6.1A-23, the rezoning request of Ag Partners, and to set the 2nd reading for Tuesday, March 3, at 9:00 a.m. Carried.

A call was placed to Group Services Representative Tom Schuetz, after receiving information regarding the final Wellmark rates that have been received. The previous rates
discussed were estimates from Wellmark. Now, the Wellmark final rates have come in, and the increase is another 2.3% over the estimated figures. The Department Heads had recalculated their employee health insurance, and the Auditor added an additional 1% to the figures in anticipation of increased rates. The consensus of the Board was to have the Auditor change the insurance figures in the FY'16 departmental budgets, increase the levy for the General Supplemental Fund, and they will review it again tomorrow.

Arends left the meeting at 11:44 a.m.

Motion by Huseman, second by Ringgenberg, to recess today's meeting at 11:50 a.m. until Wednesday, February 18, at 8:00 a.m. Carried.

Chairman Arends reconvened the meeting on Wednesday, February 18, at 8:00 a.m. with the following other members present: Altena, Huseman, Merten, and Ringgenberg, and with Auditor Susan Lloyd, as Clerk for the meeting.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Arends, Huseman, Merten, and Ringgenberg. Nays: none. Abstentions: none.

Auditor Susan Lloyd reviewed the FY'16 budget and the ending fund balances, after changing the health insurance figures and increasing the levy for General Supplemental. Motion by Merten, second by Altena, to accept the proposed FY'16 County budget as presented, and to authorize the Auditor to publish notice of the budget hearing in the official newspapers. Carried.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Arends, Huseman, Merten, and Ringgenberg. Nays: none. Abstentions: none.

Secondary Road Report: Engineer Jon Ites informed the Board that he will be attending the Land Surveyors Conference next Thursday and Friday; Ites presented plans that the City of Storm Lake has for improving Hwy 7 and Expansion Blvd, for DD #44, DD #13, and DD #13 Sub 1; Ites also presented a list of legislators to contact regarding the Road Use Tax Bill that may be up for debate today.

Engineer Brian Blomme, ISG, along with Engineer’s Derek Johnson and Evan Del Val from the ISG Des Moines office presented information regarding services they can offer, regarding the Dakota Access Pipeline project inspections. The engineers have met with 16 of the 18 county boards of supervisors and engineers, and so far, four counties have signed a letter of intent to have ISG perform the inspections. They hope that the BV County Board will consider their company for the inspection services for the Dakota Access Pipeline project. The inspection services are 100% pass through, from the Dakota Access Pipeline to the County, and then the County will pay ISG. Blomme stated that he and Eric Yunginger will be the guys on the ground working with the landowners, just like they do as District Watchmen for drainage.

Case Management Administrator Alicia Gatzemeyer presented some information regarding the Case Management Program, and the possibility of combining with Cherokee County. The HCBS/ID Waiver waiting list continues, there have been no recent consumer movements, and they continue to serve 56 consumers. The Managed Care RFP is out for Community Based Case Management to begin 1/1/2016 with a six month transition period. Gatzemeyer stated that the State has sent RFP’s out, and will have vendors bidding on a Statewide Case Management program. Gatzemeyer stated that Cherokee County will likely end their Case Management program by the end of June, 2015, if they do not combine with BV County.

Case Management Administrator Alicia Gatzemeyer brought up the issue of the CCMS contract. Gatzemeyer stated that if we cancel the contract by March 15, the penalty cost for BV County would be $917.00. The current cost of CCMS is $5.50/client/month, roughly $4,000. Cherokee County is also a member of CCMS. If the two counties did combine, then one of the CCMS fees would go away. Gatzemeyer will continue to work with Cherokee County and see whether it will work to combine the two counties for Case Management services.

Motion by Altena, second by Ringgenberg, to approve the minutes of 2/17, as printed, today’s claims approval list, and the following reports: Storm Lake United January minutes and February agenda, January Central IA Juvenile Detention Center minutes & February agenda. Carried.

**BOARD OF SUPERVISORS MEETING**
**FOURTEENTH MEETING, 2015 SESSION (14)**
**MARCH 10, 2015**

The Buena Vista County Board of Supervisors met in regular session on Tuesday, March 10, 2015 at 8:30 A.M. in the Boardroom with Chairman Arends presiding, and the following members present: Altena, Huseman, Merten, and Ringgenberg, and with Auditor Susan Lloyd as clerk for the meeting.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Arends, Huseman, Merten, and Ringgenberg. Nays: none. Abstentions: none.

Engineer Jon Ites requested to purchase a medium duty tractor to which a side mower will be attached. Ites took quotes from Case, New Holland, and John Deere. The low bid was from Case for a Case Maxim 125, for $64,000 plus trade. Motion by Ringgenberg, second by Altena, to purchase a medium duty tractor, from Case (Vetter Equipment) for $64,000 plus trade. Carried.

Motion by Merten, second by Huseman, to approve promoting Dana Vennink and Matt Fassler from Equipment Operator 1 to Equipment Operator 2, effective May 2, 2015. Carried.

Motion by Altena, second by Ringgenberg, to approve the underground utility permit for Windstream Iowa Communications, Inc., Little Rock, AR, for a fiber optic cable along 480th St., from Rembrandt to Hwy 71 and from 140th Ave. 1002' east to service Rembrandt Enterprises at 1419 480th St. Carried.
Motion by Merten, second by Huseman, to approve the underground utility permit for Windstream, Emmetsburg, IA, for a fiber optic cable, coming out of Linn Grove, on M36 to Weaver St., then to Bluff St, to N. River Road to a cell tower. Carried.

Motion by Huseman, second by Altena, to post the job application for the County Engineer position, to submit applications by March 31 to the County Auditor. Carried.

The Chairman opened the Public Hearing on the FY’16 Budget Hearing, with 6 department heads, 3 media, and 4 public present. Auditor Lloyd reviewed the proposed tax levies, the ending fund balance percentages, and the various funding of outside agencies. Arends opened it up for questions. There were comments from Tim Humes whether the Board would approve increasing the expenditures for Conservation for a zip line and also for a public swimming pool. Merten commented that those suggestions need to be addressed with the Conservation Board. Arends commented that the FY’16 couldn’t be increased now at the public hearing. Motion by Ringgenberg, second by Altena, to close the public hearing. Carried. Motion by Altena, second by Huseman, to approve and authorize the Chair to sign the FY’16 budget, as published. Altena commented that Department Heads do a great job of watching their expenditures for the first quarter of the fiscal year, so we can have a lower carry over balance. Carried.

Storm Lake Mayor Jon Kruse asked for a letter of support from the Board regarding funding the Natural Resources and Outdoor Recreation Trust Fund. In 2010, Iowans overwhelmingly voted to create the Natural Resources and Outdoor Recreation Trust Fund. Now, in 2015, it is crucial to take the next step of directing revenue to the Trust Fund to ensure that this permanent, constitutionally protected funding source is available to conserve Iowa’s water, soil, habitat, parks, and trails for generations to come. Because Iowa is not a referendum State, the next step is for the State Legislature to pass legislation to fund this Trust, as it is sitting with zero funds. If the State were to pass a sales tax increase, 3/8 of a cent will go to funding this Trust Fund. Motion by Merten, second by Ringgenberg, to approve Resolution #2015-03-10-A Support Funding the Natural Resources and Outdoor Recreation Trust Fund, and to authorize the Chair to sign. Carried.

Justin Yarosevich and Marlowe Feldman, BV County’s representatives on the **NW IA Housing Trust Fund Board**, presented information regarding the funding scheme for the Northwest Iowa Housing Trust Fund. Currently, the County contributes $11,391 to the Fund, and the Program guarantees $56,428 in Program Dollars. There is a new proposal that would have each county pay the same match based on percentage of population of the total Trust Fund area. Distributions would be on a first come first serve basis, without any specific allocation per county. Currently, the funds are guaranteed for 24 months, but can be sold after 18 months to another County that may need the funds. So far, there has been no call for a vote on this change, however, Yarosevich and Feldman wanted the Board to be aware of this possible change.
Sheriff Kory Elston informed the Board that Sheila Cougill and Jean Assmann received the Iowa APCO Team Telecommunicators of the Year award. They were nominated in recognition for the outstanding performance of their duties in serving the citizens of Buena Vista County, for their commendable handling of critical calls, and for their 36 years of combined service as public-safety dispatchers. Elston also informed the Board that Jeri Kolpin will be retiring the end of May, and Dan Nguyen will be leaving the end of September. Elston is taking applications for dispatchers, and will be testing for this the first week of April. Elston stated that IDNR has obtained another boat, and they have offered to allow the County to use the older boat, insure it, and can return it to DNR when the County is done with it. They would like to move the hoist and boat to the east side of the lake, so that there is a boat on both sides of the lake. Elston will contact the County Attorney to develop a 28E agreement for using this boat. Elston informed the Board that he has found a good used car, a 2013 Ford Taurus, and would like to trade in 3 vehicles, for a total vehicle cost of $12,000. He currently has $18,000 left in his vehicle line item, due to good trading of other vehicles. Elston introduced Jason Butler, who is a member of the BV County Sheriff Reserves. Butler asked the Board to be a fiscal sponsor for their organization, to apply for a Community Foundation Grant, in the amount of $2,000, to be used to purchase a laptop computer for the Sheriff Reserve vehicle. The consensus of the Board was in favor, and Butler will present the grant application to the Board for approval next week.

Therefore, I, Buena Vista County Supervisors do hereby proclaim the month of April 2015, as Child Abuse Prevention month in Buena Vista County and urge all citizens, community agencies, religious organizations, medical facilities, and businesses to partner in efforts to prevent child abuse and neglect, thereby strengthening the communities in which we live.

Carried.

RESOLUTION 2015-04-14-A

Recommending approval of the 180 Iowa Layer (David Miller) Construction Application to the Iowa Dept. of Natural Resources.

WHEREAS, the Buena Vista County Board of Supervisors has adopted the Master Matrix CAFO construction applications to provide an opportunity for local input; and

WHEREAS, a construction application for the addition of one double wide cage free layer barn with manure storage has been submitted by David Miller on March 12, 2015; and

WHEREAS, the Buena Vista County Environmental Health Director has reviewed the application using the Master Matrix, finding a score of 455 points, and has verified all of the elements of the application for accuracy; and

WHEREAS, the minimum score set by the DNR is 440 points.

WHEREAS, the Board of Supervisors published a notice in the Pilot Tribune on March 21, 2015 as required, and held public hearing in the Supervisors Meeting Room at the Courthouse on April 14th, 2015, for the purpose of receiving public comment; with responses provided: Ron Anderson (the neighbor to the south) has concerns with the closeness to his residence. If this was a new structure it would be required to be 1875 feet and now it is only 750 feet. He had planned on building a new house and now it probably will not happen. What is going to stop additional buildings after this one? When wind is out of north and they are scrapping buildings the odor can be quite strong. Mr. Miller stated that he was willing to put trees to the south.

WHEREAS, the Board of Supervisors shall submit the recommendation within 30 days of DNR receipt of application,

WHEREAS, the Board of Supervisors, has assembled their comments with knowledge provided for submission to the DNR; while we are recommending approval of this Construction Application, we do have concerns with the distance requirements on existing sites.

NOW THEREFORE BE IT RESOLVED that the Buena Vista County Board of Supervisors hereby recommend approval of the construction application of the 180 Iowa Layer (David Miller) Application.
PASSED, APPROVED AND ADOPTED this 14th day of April, 2015.

BOARD OF SUPERVISORS MEETING
TWENTY-FIRST MEETING, 2015 SESSION (21)
APRIL 21, 2015

The Buena Vista County Board of Supervisors met in regular session on Tuesday, April 21, 2015 at 8:30 A.M. in the Boardroom with Chairman Arends presiding, and the following members present: Altena, Huseman, Merten, and Ringgenberg, and with Auditor Susan Lloyd as clerk for the meeting.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Arends, Huseman, Merten, and Ringgenberg. Nays: none. Abstentions: none.

Motion by Altena, second by Huseman, to amend today’s agenda by adding an additional action item to authorize the Board to potentially close roads. Carried.

Secondary Road Report: The first culvert project, south of C65, has been pulled from the schedule, as there was opposition from a landowner on the County line; asphalt letting today, and Engineer Ites is concerned about the bids, since there is so much work to be done right now. Ites has been notified that the County will receive $1,030,000 in MAP21 funds for 2019, and he asked them to move the C63 project up to next fiscal year, and was notified that the change request was approved.

The Chairman reported that Bret R. Wilkinson, has been offered, and has accepted the position of Buena Vista County Engineer, his employment to begin April 27 as Assistant Engineer, and, effective June 13th, he will begin as County Engineer. Motion by Ringgenberg, second by Arends, to approve the employment contract to hire Bret R. Wilkinson as an Assistant County Engineer effective 4/27/15 at an annual salary of $99,220, and moving to County Engineer effective 6/13/15 at an annual salary of $99,220.00, according to his employment contract (expires 6/30/18), and to authorize all Board of Supervisors to sign. Carried.

I.T. Director Tyler Van Houten reviewed his request for a budget amendment. There have been two new projects that were not in the current budget, one for a GIS shape file and the other a fiber optic project, for a total requested amendment of $25,000.

Env Health/Zoning Director Kim Johnson reviewed the RAGBRAI Ordinance that the County approved in 2010 when RAGBRAI came through BV County, and asked the Board if they wanted to make any changes. The first reading of a RAGBRAI Ordinance for 2015 will be on April 28.
Env Health/Zoning Director Kim Johnson updated the Board on the proposed construction permit of Jim Hultgren in Section 18 of Nokomis Township. Since there are only 1,620 animal units, and it was built before 1999, a master matrix isn’t needed. There will still be a public hearing on May 5, but not for a master matrix.

Mary Weiland informed the Board that the Relay for Life Team was planning a potato bar lunch on May 5, in the Public Meeting Room, and requested approval by the Board to have the event and to bring in food. Motion by Huseman, second by Ringgenberg, to allow the Relay for Life Team to host a potato bar in the Public Meeting Room on May 5. Carried.

Payroll Deputy Leigh Madsen discussed the possibility of having Stille Pierce & Pertzborn Agency be the Wellmark Agent of Record for the County Health plan. The law has changed, and now businesses can select whom they want for an Agent of Record. Currently, there is a fee built in to the premium that Wellmark currently receives for providing this service, and if the County would choose another Agent of Record, Wellmark would lose their fee, and there would be a fee paid to the new agent as a commission. By having a local agent, employees could contact the Agent of Record, and calls could be made on the employee’s behalf, to help with their insurance questions. Motion by Huseman, second by Altena, to name Stille Pierce & Pertzborn the County’s Agent of Record for health insurance. Carried.

Motion by Merten, second by Altena, to approve the minutes of 4/14 and 4/16, as printed, today’s claims approval list, and the following reports: April Conservation Board minutes, March NWIPDC Policy Council minutes and April agenda, April Rolling Hills Community Services Region Meeting agenda and packet, April Central IA Detention Commission minutes. Carried.

Motion by Merten, second by Ringgenberg, to approve the appointment of Greg Johnson, by the Conservation Board, as Weed Commissioner, effective April 14, 2015, and to set the salary of the Weed Commissioner as $1,628 per year, split between 26 pay periods, increasing to $1,677 per year, split between 26 pay periods, starting July 1, 2015. Carried.

A drainage petition has been received from David Degner, Sr., requesting that DD #35 be investigated for possible annexation of additional lands from DD #98 in to DD #35. ISG Engineer Brian Blomme and David Degner, Sr. was present for the discussion. Blomme informed the Board that in 2005-2006 the Board was considering an improvement, and they had applied for funds through a pilot project, but no funding was available. Then, the landowners remonstranced, so the project was stopped. There was one item left, and that was annexation of lands from DD #98, that were benefitting and draining in to DD #35. Degner has filed a petition, asking for annexing lands from DD #98 into DD #35. Degner mentioned that two weeks ago, his neighbor did more tiling, and those people in DD #98 are getting relief at the cost of DD #35 landowners. Blomme stated that there is a petition on the table for annexation of additional lands in to DD #35, so the Board will need to act on the petition, and appoint an Engineer to do a full investigation, and also decide if they want to do an annexation of DD #98 at the same time, without having a landowner of DD #98 petition for it. Motion by Merten, second by Ringgenberg, to name ISG as the Engineer for the project to go forward with the annexation of all lands currently within the boundary of DD #35 that are not currently a part of the assessment schedule. Carried.

The Chair opened the Public Hearing on the Proposed Plans and Specifications on DD #34 Lat 6, with Engineer Brian Blomme and Jacob Hagen, I & S Group, Deputy Treasurer Joan Martin, and Cheryl Krohnke present. The Auditor confirmed that the notice was published once a week,
for two consecutive weeks as required. Blomme reviewed the plans and specifications of the project. The project will commence on May 15, and will be finished by September 15. Martin asked when the reclassification will be done. Blomme stated that the work will be done this fall, and the reclassification will be done next winter. Motion by Altena, second by Arends, to close the public hearing. Carried. Motion by Ringgenberg, second by Huseman, to approve the plans and specifications, as filed by the Engineer, for DD #34 Lat 6. Carried.

The time arrived for the bid letting for the DD #34 Lat 6 project. Three bids were received: Krohnke Construction, Inc., Schleswig, IA, ($179,083.00), Heinsohn Digging & Tiling, Storm Lake, IA, ($172,525.92), and L. A. Carlson Contracting, Inc., Merrill, IA, ($166,921.95). The Engineer’s bid estimate was $185,678.60. Motion by Ringgenberg, second by Merten, to approve the bid, on the DD #34 Lat 6 project, of L. A. Carlson Contracting, Inc., Merrill, IA, in the amount of $166,921.95, pending verification of the extensions. Carried.

Drainage Attorney Gary Armstrong was present for his appointment. Motion by Ringgenberg, second by Altena, to go into closed session under Chapter 21.5(1)(c) of the 2015 Code of Iowa, to discuss strategy with counsel in matters that are presently in litigation or where litigation is imminent where its disclosure would be likely to prejudice or disadvantage the position of the governmental body in that litigation. Ayes: Altena, Arends, Huseman, Merten, Ringgenberg. Motion carried.

Motion by Ringgenberg, second by Altena, to go out of closed session at 12:30 p.m. Carried.

At 1:30 p.m., the Buena Vista County Board of Supervisors came out of recess to meet in the Law Enforcement Center of the Sac County Courthouse with Supervisors from Sac and Calhoun Counties and their respective drainage attorneys. Those in attendance included Buena Vista County Supervisors Don Altena, Dale Arends, Tom Huseman, Paul Merten, and Rhonda Ringgenberg, Buena Vista County Drainage Attorney Gary Armstrong, Buena Vista County Auditor Susan Lloyd, Calhoun County Supervisors Scott Jacobs and Gary Nicholson, Calhoun County Auditor Judy Howrey, Calhoun County Drainage Attorney David Wollenzein, Calhoun County Attorney Tina Meth-Farrington, Sac County Supervisors Rick Hecht, Dean Stock and Ranell Drake, Sac County Drainage Clerk Renee Roland, Sac County Auditor Jim Dowling, and Sac County Drainage Attorney Colin McCullough. Also present was John Torbert, IDDA Director, and Harlan Hansen, Humboldt County Supervisor and IDDA Board member.

Motion by Merten, second by Ringgenberg, to go into closed session pursuant to Iowa Code 21.5(1c) to discuss imminent litigation at 1:35 p.m. Ayes: Sac County-Hecht, Stock and Drake; Buena Vista County- Altena, Arends, Huseman, Merten, and Ringgenberg. The boiler is eligible for a rebate from Alliant Energy of $800-$1,500. Hammen is projecting the energy expenses to be $29,000-$35,000 per year, which would be back to what it used to be before the increases by Mid-American. Hammen estimates that in 7 years, the project would be paid back. The Board will discuss this later in their meeting.

Engineer Jon Ites received a request from C. J. Bean, to purchase 10 loads of sand to be used in the horse arena of the BV County Fair. Ites stated that it would be the Board’s decision, since it would be coming from the gravel pit that is used for County road maintenance. C. J. Bean and Kevin Jesse were present for the discussion. Bean commented that the Extension Council would pay for the hauling, if Secondary Roads couldn’t do it. Motion by Altena, second by Huseman, to donate 10 loads of sand, to be used in the horse arena at the **BV County Fair**, to help load the material, but the hauling would be paid for by the Extension Council. Carried.

Engineer Jon Ites received a draft letter from ISG Engineer Evan Del Val, for the Board’s consideration, to send to Mr. Jack Edwards, of the **Dakota Access Pipeline**, regarding Buena Vista County inspection services with the proposed Dakota Access Pipeline Project. Ites suggested that the letter be signed by the Board Chair rather than himself. Ites stated that this is the first step, in designating what ISG would be reimbursed for, regarding the pipeline inspection project. The consensus of the Board was to have the letter prepared for the Chair to sign at their next meeting.

Engineer Jon Ites informed the Board that his tile foreman stated that the upper reaches of DD #34, the first mile and a half, is in need of a cleanout. Ites recommends that the Board pass this information along to the District Watchman. Ites stated that it takes 3-5 months to go through the process and actually receive a new machine. The consensus of the Board was to take quotes for a new motor grader.

Case Management Administrator Alicia Gatzemeyer reviewed her department’s activities. They are currently serving 56 consumers. The RFP’s had to be in to the State by May 8th for the Managed Care Provider for **Case Management**.

Case Management Administrator Alicia Gatzemeyer reviewed the FY’16 Projected Cost Report for Case Management. No decision has been made on the CCMS contract, so she has left it in currently. Gatzemeyer is also requesting to reduce her hours down to 35 hours per week, maybe as soon as June, which would affect her cost report. By leaving the CCMS contract amount in, and reducing Gatzemeyer’s hours to 35, the total cost per unit will be $50.47. The
Board discussed whether to continue with CCMS another year, or to go through with their intent to withdraw. Gatzemeyer commented that when the State awards the contracts for Case Management, the County run Case Management would be done by June, 2016. Motion by Ringgenberg, second by Altena, to approve reducing Alicia Gatzemeyer’s hours to 35 hours per week, beginning June 1, 2015, at a salary of $39,202.80, with a 3% increase July 1 to $40,367.60. Env Health/Zoning Director Kim Johnson received information regarding an MMP for the Potter Site in Section 32, Newell Township. This would be for a 2,400 head hog facility. Motion by Huseman, second by Altena, to set the public hearing on the MMP for the Potter Site in Section 32, Newell Township, for June 2, at 9:00 a.m. Carried.

Engineer Brian Blomme and Engineer Eric Yunginger, ISG, received a request from Kim Kischer for a proposed surface pipe repair and bridge removal in DD #34 Lat 2, Section 9 of Fairfield Township. It was determined that the previous contractor buried rock inappropriately, but since this is now over two years since the project was completed, the contractor cannot be held responsible for the repair. Blomme recommends installing an additional 30” pipe next to the current 30” pipe to be reinstalled, to help with the water retainage, thereby improving drainage to the area. Yunginger reviewed the bridge removal that is needed in the area. The abutment came down on its own, hasn’t been used in quite some time. Blomme has contacted a couple contractors to see if they were available to remove this abutment as soon as possible, if the Board approves. Merten asked whether it was the responsibility of the landowner to remove the abutment. Blomme mentioned that if there is rebar, it needs to be removed, as they cannot leave rebar in the open channel of the ditch. Blomme thought it was best to have the County remove the abutment, to be sure that it is removed, and discuss later whether to charge it back to the landowner. The estimated cost of the project is $7,500 for the proposed surface pipe repair and bridge removal. Motion by Ringgenberg, second by Arends, to direct the District Watchman to discuss these repairs with the County Engineer, to see whether to have Secondary Roads perform the repairs, or to have ISG proceed in contacting a contractor and negotiating a price for the proposed surface pipe repair and bridge removal in DD #34 Lat 2, in Section 9 of Fairfield Township. Carried.

Motion by Altena, second by Huseman, to approve and authorize the Chair to sign the proposed tile repair for 2 locations in **DD #83**, located in the E1/2 NW ¼ of Section 29, Barnes Township, in the amount of $1,300. Carried.

Motion by Merten, second by Altena, to approve and authorize the Chair to sign the proposed tile repair in **DD #205**, located in the NE ¼ NE ¼ of Section 13, Coon Township, in the amount of $3,500. Carried.

Drainage Attorney Gary Armstrong was present for his appointment. Motion by Huseman, second by Merten, to go into closed session under Chapter 21.5(1)(c) of the 2015 Code of Iowa, to discuss strategy with counsel in matters that are presently in litigation or where litigation is imminent where its disclosure would be likely to prejudice or disadvantage the position of the governmental body in that litigation. Ayes: Altena, Arends, Huseman, Merten, Ringgenberg. Motion carried.

Motion by Ringgenberg, second by Merten, to go out of closed session at 11:10 a.m. Carried.

Treasurer Sherie Elbert and Deputy Treasurer Joan Martin presented information regarding a line adjustment plat that was done in 2005 between two parcels, and nobody has paid the taxes on this piece in a long time, so there are back taxes of $245. The owner of the south parcel is willing to pay $125 for their share of the back taxes, and then quit claim the piece to Carl Bellows, the landowner to the north. An abatement of $119.50 would need to be done. Motion by Merten, second by Altena, to abate $119.50 of back taxes on parcel #1232300011. Carried.

Motion by Huseman, second by Ringgenberg, to approve the minutes of 5/5 as printed, today's claims approval list, and the following reports: Hunzelman, Putzier & Co. Accountant's Compilation Report, Iowa Supervisor's survey, BV County Solid Waste April minutes & May agenda, May Clerk of Court Report, April BVCS Early Childhood Iowa 3-County Board Meeting report, April NWIPDC Policy Council minutes, April Safety Committee minutes. Carried.

Motion by Merten, second by Altena, to authorize the Chair to sign the 2015 County Weed Commissioner Certification Form, appointing Greg Johnson as Weed Commissioner for Buena Vista County. Carried.

Motion by Huseman, second by Merten, to authorize the Chair to sign the Statement of Support for the Guard and Reserve. Carried.

Motion by Altena, second by Ringgenberg, to approve and authorize the Chair to sign the Rolling Hills Community Services Region Chief Executive Officer Contract, which covers the counties of Buena Vista, Calhoun, Carroll, Cherokee, Crawford, Ida, and Sac, that are within said Region. Carried.
The Board discussed the mental health advocate per request of the Rolling Hills Mental Health Region. Legislation states that the mental health advocates will be reappointed July 1, with the County to have oversight, and the advocate will be a part-time employee of each of the counties. The Region would like to see the advocate position be through the Region, and not each individual county. No action was taken on this today.

**Supervisors Meeting Reports:** Altena attended the Solid Waste Commission meeting.

There being no further business, motion by Ringgenberg, second by Arends, to adjourn the meeting at 11:50 a.m. until Tuesday, May 26, at 8:30 a.m. for a special session. Carried.

Motion by Ringgenberg, second by Altena, to approve and authorize the Chair to sign the IDDA Resolution #2015-06-02-A, committing $5,000/year for three years, to the IDDA litigation fund, for the legal defense of the drainage districts in BV, Calhoun, and Sac Counties. Carried.

RESOLUTION #2015-06-02-A

Whereas, the Des Moines Waterworks has filed suit under the Clean Water Act against drainage districts in Buena Vista, Calhoun and Sac Counties, and;

Whereas, the suit would seek to regulate agricultural practices which are currently exempt from regulation under the Clean Water Act, and;

Whereas, the suit, if successful would impose regulatory burdens upon drainage districts and the landowners in those districts, and;

Whereas, the suit, if successful, would require drainage district trustees to exercise powers that are not legally available to them under existing state law, and;

Whereas, the suit would irreparably harm drainage rights, operations and row crop production in this county, and;

Whereas, it is recognized that the suit, while filed against a small number of districts would, if successful, be applicable to all districts in Iowa and in other states, and;

Whereas, it is recognized that a strong legal defense must be made against the lawsuit, and;

Whereas, it would be in the best interests of Iowa counties to directly support the legal defense of the drainage districts in Buena Vista, Calhoun and Sac Counties and to have the Iowa Drainage District Association participate in the case if requested by Belin McCormick Law Firm, the attorneys retained by Buena Vista, Calhoun and Sac Counties, in order to represent the interests of all drainage districts in Iowa.

Now, therefore be it resolved that the Buena Vista County Board of Supervisors pledges financial support to help fund the legal defense of the drainage districts in Buena Vista, Calhoun and Sac Counties; and it is understood that IDDA will disperse said monies to Buena Vista, Calhoun and Sac Counties at their request.

Now, therefore be it further resolved that the financial support will be in the amount of $5,000/year for three years payable to the IDDA litigation fund for the legal defense of the drainage districts in Buena Vista, Calhoun and Sac Counties. If the lawsuit is resolved in a prompt fashion and the second or third years of the financial support is not necessary, the IDDA board will notify the county that the additional financial support is not necessary.

Dated this 2nd day of June, 2015.

The Buena Vista County Board of Supervisors met in special session on Wednesday, June 17, 2015 at 12:30 P.M. in the Sac County Conference Room, Sac City, IA, with the Calhoun and Sac County Boards of Supervisors, regarding the Des Moines Water Works lawsuit. Sac County members in attendance were: Ranell Drake, Dean Stock, and Rick Hecht, with Drainage Clerk Renee Rolland as Clerk for the Sac County Board; Calhoun County members in attendance were: Gary Nicholson, Mike Cooper, Scott Jacobs, and Drainage Attorney David Wollenzien, with Deputy Auditor Karen Noreen as Clerk for the Calhoun County Board; and Buena Vista County members in attendance were: Altena, Huseman, and Merten, with Auditor Susan Lloyd as Clerk for the Buena Vista County Board. Absent: Arends and Ringgenberg.
Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Huseman, and Merten. Nays: none. Abstentions: none.

Motion by Merten, second by Huseman, to designate Sac County Drainage Clerk Renee Roland to record the minutes, if there is a closed session. Carried.

Hecht started the discussion of the administration of the Joint Defense Fund, and appointing two members to the committee. IDDA has appointed Keith Dencklau and John Torbert as their representatives on the committee. The suggestion was made to have 1 member from two of the counties for the first year, and then 1 member would go off of the committee, and the remaining county would appoint a representative. Calhoun County questioned what happens if there is a tie since there are four members on the committee, and the agreement doesn’t address that. Merten commented that Sac County should have a member on the committee for 2 years since they have the majority of the drainage districts listed in the lawsuit. Motion by Drake, second by Hecht, to appoint Stock as the Sac County representative on the Joint Defense Fund Committee, for a 2-year term. Carried.

Motion by Huseman, second by Altena, to appoint Merten as Buena Vista County’s representative on the Joint Defense Fund Committee, for a 1-year term. Carried.

At 1:17 P.M., Motion by Merten, second by Altena, to go in to closed session, and the Sac County Board of Supervisors voted to go in to closed session under Chapter 21.5(1)(c) of the 2015 Code of Iowa, to discuss strategy with counsel in matters that are presently in litigation or where litigation is imminent where its disclosure would be likely to prejudice or disadvantage the position of the governmental body in that litigation. Their motion carried.

At 1:53 P.M., the Sac County Board of Supervisors voted to come out of closed session. Their motion carried. Motion by Merten, second by Huseman to come out of closed session at 1:53 P.M. Carried.

No action was taken, after the closed session.

The cost of the renewal will be $40,000, and the State/Federal funding will be $30,000 ($22,500 cash from the State/Federal + $7,500 soft match), leaving a $10,000 cash match needed from the County. Motion by Ringgenberg, second by Merten to authorize the expenditure of up to $10,000 from County funds, to be spread over two fiscal years, for the Hazard Mitigation Plan application. Carried.

Most materials have been donated and they are trying to do the work themselves. The City of Storm Lake has also been asked to donate, along with the Sheriff Reserve Association. The consensus of the Board was to allow Sheriff Elston to donate $1,500 to the Gun Club, if there are funds in his budget. Motion by Huseman, second by Ringgenberg, to donate 150 ton of gravel to the Gun Club, with the club being responsible for hauling. Carried.

Sheriff Kory Elston has prepared law enforcement contracts for all of the small cities, excluding Alta, and will be sending them to the City Clerks for their approval, before coming to the Board.

Engineer Brian Blomme, ISG, was present for the Board’s consideration of the Storm Lake Airport Commission’s request for assistance and relief from ponding issues on their land, which they believe are caused by a damaged drain tile that is property of DD #177. Blomme presented previous reports and investigations that were done, which stated that farming practices should take full advantage of this relief by installing grass waterways to accommodate the flow of surface runoff during large rain events. Trees have been removed off of the tile line, in part of the maintenance of DD #177. Blomme stated that the system is doing exactly what it is supposed to do, by having the water pond on the airport property and then it gradually drains into the file. Blomme doesn’t see any farm land within the DD #177 watershed that is need of an improvement. According to the report by previous County Drainage Engineer Darel Burns, the system is working as it was intended to. Blomme recommends sending the March, 2014 report back to the Airport commission, to let them know that the system is operating the way it was intended, when it was created in 1977. The Chair will be meeting with the City officials on July 2, and will deliver a copy of the report to them.

Engineer Brian Blomme, ISG, reviewed the proposed Resolution by BV County Drainage Districts on Construction of a Hazardous Liquid Pipeline Over, Across, or Beneath County Drainage Districts, reviewing the highlights. It was the consensus of the Board, and the recommendation of Blomme, to send a copy of the proposed resolution to the Drainage attorney for his review. Blomme also reviewed the application form.

Engineer Brian Blomme, ISG, presented information regarding the upper end of DD #34 MOD, showing photos of the condition of the upper 1.75 miles, which shows sediment bars, a couple areas that need side slope repairs, pipe replacement, and bank stabilization. Motion by Merten, second by Ringgenberg, to appoint ISG as the Engineer, to do an investigation of survey and cost estimate, for repairs to the upper end of DD #34 MOD. Carried.

Motion by Altena, second by Ringgenberg, to approve and authorize the Chair to sign the 3-county letter that will be used to solicit funds for the Defense Fund of the Des Moines Water Works lawsuit. Carried

The City has discussed with the Lake Improvement Commission the possibility of contracting the dredge operation for the remainder of time, as it is difficult to find part-time employees from April through November, training issues, safety issues, and operations issues. The City sent out proposals to 9 companies, and received 4 proposals back, with the best proposal from Dredge America, Kansas City, MO, at $1.50/cubic yard. The Lake Improvement Commission told the City of Storm Lake to negotiate a contract, as they get closer to the end of the dredging project. The proposal from Dredge America also includes buying all of the dredge equipment for $1,000,000. Patrick stated that he knows that the County owns the dredge, but the City has paid for other equipment, the pipe, and has paid to have repairs done to the dredge. THIRTY-SIXTH MEETING, 2015 SESSION (36)

Motion by Altena, second by Huseman, to approve the minutes of 7/28 as printed, and the following reports: July Rolling Hills Region Governance Board packet, Silverstone Actuarial Valuation Report for FYE 6/30/15. Carried.

Supervisor meeting reports: Altena attended the Solid Waste meeting last Wednesday, and attended the Upper Des Moines meeting last week; Arends attended the NW IA Planning meeting last week and also the quarterly MAP21 meeting. Safety and Department Head meetings are this week and also Compass Pointe.

The Board moved their meeting to the Public Meeting Room for the DD #106 Public Hearing.

The Chair reconvened the Public Hearing, at 10:00 a.m., on the DD #106 Preconstruction and Reclassification, with Engineer Brian Blomme, I & S Group, 14 landowners and Drainage Clerk Kristina Konradi present. Letters were received from Linda Jane (McKibben) Boettcher, Randy McKibben, Karla McKibben Fegley, Rodney & Linda Hatlen, Melvin Ripke, Randall Ripke, and Judy Ripke, Scott Nelson (Farm Manager for Clemens Von Twickel), Denny Smith, and Greg Young, all objecting to the project. All of the objection letters will be kept with the DD #106 drainage records. Blomme reviewed the history of the District and stated that the cleanout would be for 2.2 miles of Open Ditch. There are two internal drainage districts, DD 5E-11
Blomme mentioned that the Board had an informal hearing previously to determine if landowners would be in favor of an improvement to the district. At the time of the informal hearing, the landowners were against an improvement, so the Board authorized the Engineer to proceed with a report for proposed repairs to the District. The estimated cost of the repairs, including additional easements, annexation, reclassification, and warrant interest is $310,859.70, with an average cost per watershed acre (7,917 acres) of $39.26 and the average cost for 10 years of $3.93. A preliminary assessment schedule of DD #106 was sent out to the landowners. Commissioner will be brought in to look at the preliminary assessment schedule, and will use 6 factors in determining the reclassification of each parcel. There was not a petition filed for repairs in this drainage district, but was due to the visual investigation of the engineers when working on the DD #34 Lat 6 OD, and the landowners were concerned about the condition of the system. Blomme stated that the whole system needed to be looked at, and to get DD #34 Lat 6 and DD #106 on the same time table. Blomme commented that the complaint letters received represented 17.4% of the total acres in DD #106. One landowner requested that the project be delayed, and others stated that if the project did move forward, they asked to be given a longer period of time to pay off their assessment. Blomme stated that the Board’s options are to wait for a petition to be filed requesting the project proceed, or to proceed with the project now. Blomme stated that he still stands behind the Engineer’s Report, which is good for 10 years, and thanked the landowners for writing letters objecting to the project. If the Board moves forward with the project, then they will also go forward with the annexation and reclassification. If the Board decides to wait on the project, Blomme still recommends going forward with the annexation and reclassification. Merten commented to the landowners present, that reclassification is still an expense to the district, even though there is no other work done. Ringgenberg asked when the project would be started, and Blomme stated that no work would be done until after the crops were harvested this fall. Merten asked when the taxpayers would see a bill. Blomme stated that DD #106 wouldn’t have a levy until 2017. The estimated cost of reclassification of the north portion of DD #106 is $79,200, and the south portion would be $30,000. Motion by Merten, second by Ringgenberg to close the public hearing @ 11:59 a.m. Carried. Motion by Merten, second by Huseman, to wait for a petition to be filed after hearing the objections, as the repairs are a financial burden to the landowners, to keep the current engineer’s report on file for ten years. Arends asked what percentage of landowners can bring the report out of the file, and proceed with the repairs. Blomme stated that any single landowner can present a petition, and then the Board shall move forward with the project. Altena asked the landowners how many of them own land in more districts, and are getting double dipped, which some raised their hands. Arends stated that he wants to proceed. Ayes: Altena, Huseman, Merten. Nays: Arends, Ringgenberg. Carried. Blomme stated that he still recommends annexation and reclassification, to bring in property that is receiving benefits of DD #106. Motion by Ringgenberg, second by Merten, to proceed with reclassification and annexation for DD #106. Carried.

At 12:15 p.m., the Board moved back to the Supervisors Room for the remainder of their meeting.

Drainage Attorney Gary Armstrong was present for his appointment. community. This is for a 2,000 animal units, feeder to finish. Mattson is a pork producer in the area, and commented that he was not happy that there was no communication with the neighbors at all. Mattson commented that even though it meets the required distance, it isn’t much, only 500’, and he is concerned about disease transmission. Mattson also stated that the owner of the ground is an absentee landowner, and will never live in the area. He stated that it appears to be strictly for money, and the neighbors get the fly, dust, and other nuisance conditions. Merten stated that all comments will be passed on to the DNR. Patrick asked if the Board would like to have the City submit an application on behalf of the Board, or write a letter for the Board to approve, or if the Board wants to prepare the letter to submit. The consensus of the Board was to have Patrick prepare the letter requesting the Home Base Iowa Community designation, for the Board’s approval. The Board feels that this is a very important program.

BOARD OF SUPERVISORS MEETING
FORTY-FIFTH MEETING, 2015 SESSION (45)
SEPTEMBER 22, 2015

The Buena Vista County Board of Supervisors met in regular session on Tuesday, September 22, 2015 at 8:30 A.M. in the Boardroom with Chairman Arends presiding, and the following members present: Altena, Huseman, Merten, and Ringgenberg, and with Auditor Susan Lloyd as clerk for the meeting.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Arends, Huseman, Merten, and Ringgenberg. Nays: none. Abstentions: none.

Motion by Merten, second by Altena, to approve the underground utility permit for Iowa Lakes Electric Cooperative, Estherville, IA, to install single phase, overhead, 7,200 volt power lines north along 230th Ave. from 580th St., for a new service. Carried.

Secondary Road Update: The crews are edge rutting on M50, and then will move to M36 and M27; still receiving entrance requests; they are still rocking; they are expecting painters to start today on the asphalt project, and then just the seeding will need to be done; McGowan is at a conference this week; Engineer Wilkinson is hoping to bring a name to the board next Tuesday, for the Board to hire to replace Ploeger.

Supervisor Meeting Reports: Arends attended the NW IA Planning, RIDES, and the Regional Safety Committee for SHIELD; Arends also attended the NW IA YES Center meeting last Friday.

Env Health/Zoning Director Kim Johnson informed the Board that Calhoun County has given up their food inspections with DIA, and it has been offered to BV County. Calhoun County currently has 66 establishments, and brings in an income of $11,652 per year. Currently, BV County inspects on an annual basis. By adding Calhoun County, the total inspections would be 654. Staff is concerned about going to a 4-county inspection. Ultimately, this is decided by the Board of Health, but Johnson wanted the Supervisors to be aware.

The Chairman open the Public Hearing on the new MMP for the Frank Site in Section 8 of Washington Township with Env Health/Zoning Director Kim Johnson, Don Cullers, Dave Magnus, Janet Magnus, Paul Magnus, Doug Miller, Dave Gutel, and Lyle Mosbach present. There were no owners or builders present for the discussion. The contact person is listed as Andy Kosky. This is for a 2,400 head, 960 animal unit, finishing hog facility, which is
under the Master Matrix. Cullers lives one mile north of the proposed location. Cullers concerns were the impact to individual residents, environmental impact, and impact to the County. The primary impact to individual residents is nuisance odor and negative impact on property values. Currently there are five animal feeding confinement operations within one and one-half miles of Cullers house. Cullers commented that the location is next to a drainage ditch in the County, which will impact nitrate levels. All of the other landowners agreed with what Cullers comments were, and are all against this facility being built. Johnson will forward all comments to the IDNR. The Board stated that they have nothing to do with the approval or denial of the permit, but they always like to have the public hearing to air the residents’ concerns. Motion by Huseman, second by Altena, to close the public hearing. Carried.

Bldg/Grounds Supt. Steve Hammen requested to carry over 91 hours of vacation time. Motion by Merten, second by Altena, to allow Steve Hammen to carry over 91 hours of vacation time. Carried.

Nurse Administrator Pam Bogue requested a small remodel job to enlarge her office space. Hammen was present too for the discussion, and showed the Board a diagram of what the office layout looks like. Hammen estimated the cost to be $6,000-$6,500, and would be done next fall. The Board didn't take action on this subject, they will go tour the office and revisit this in a couple weeks.

Emergency Management Coordinator Aimee Barritt informed the Board of a letter she received from the Sioux City Fire Department regarding BV's current HAZMAT agreement, which will expire 6/30/17. Currently, BV County pays .85 per capita for a total of $17,221. The proposed increase is up to $20,260, or $1/capita. Barritt has surveyed other HAZMAT Teams to see what their charges are, and some include classes and mapping services. Barritt would like to schedule a meeting with Sioux City Fire Department, LEPC, and the Board of Supervisors, to start looking at options before negotiating a new contract.

Hear the Public: Sheriff Kory Elston introduced his newest deputy, Jacob Nelson.

Drainage Attorney Gary Armstrong cancelled his appointment for today.

James Eliason returned to the Board meeting to discuss the resolution that he presented last week for the Board to consider. Eliason stated that nine cities/counties have passed this resolution in Iowa, and 650 cities and counties across the nation have passed this resolution. The resolution is to show the Board’s full support for a constitutional amendment to restore the right to limit spending in our elections, and for state and federal lawmakers to assure transparency such that entities and persons spending significant sums in our elections are known to the public. Arends stated that he struggles with whether it is appropriate for the Board to pass a resolution that is an opinion. Merten commended Eliason for bringing it to the Board, stating that this is a good place to start to bring this to the Federal Government, to have a change made. Eliason commented that this will weigh in on the Federal Government, and stated that if the Board is in favor of the “idea” then they should pass the resolution. Arends commented that he didn’t like the last paragraph restricting the donations to $200. Eliason commented that he read it differently, and would not have a problem with deleting the last paragraph, as he certainly doesn’t want to deter individuals from running for local office. Motion by Altena, second by Merten, to approve the proposed Resolution #2015-09-22-A, striking the last paragraph as it
was presented. Ayes: Altena, Merten, Ringgenberg. Nays: Arends. Abstention: Huseman. Motion carried.

RESOLUTION #2015-09-22-A

Resolution to establish as the position of the Buena Vista County Board of Supervisors full support for a constitutional amendment to restore the right to limit spending in our elections, and for state and federal lawmaking to assure transparency such that entities and persons spending significant sums in our elections are known to the public.

WHEREAS, the United States Supreme Court recognized in Austin v. Michigan Chamber of Commerce (1990) the threat to a republican form of government posed by "the corrosive and distorting effects of immense aggregations of wealth"; and

WHEREAS, the United States Supreme Court in Citizens United v. the Federal Election Commission (2010) reversed the decision in Austin, thereby resulting in excessive influence of wealth in influencing voters; and

WHEREAS, the United States Supreme Court held in Buckley v. Valeo (1976) that the appearance of corruption justified limits on contributions to candidates; and

WHEREAS, money is property, it is not speech; and

WHEREAS, Article V of the United States Constitution empowers the people of the United States of America to use the constitutional amendment process to correct egregiously wrong decisions of the United States Supreme Court,

NOW, THEREFORE, BE IT RESOLVED that it is the position of the Buena Vista County Board of Supervisors that corporations do not have the same constitutional rights as natural persons do; and that because money is not speech, limits on political spending will promote the goals of the First Amendment by ensuring that all citizens, regardless of wealth, have an equal opportunity to have their political views heard; and

BE IT FURTHER RESOLVED that the Buena Vista County Board of Supervisors shall send a copy of this resolution to each state and federal legislator representing Buena Vista County, respectfully urging Iowa's Congressional delegation to pass an amendment to the United States Constitution overturning the Citizens United decision, and calling upon the Iowa State Legislature to pass a resolution calling for such a constitutional amendment and expressing willingness to ratify the amendment upon passage by Congress.

Approved this 22\textsuperscript{nd} day of September, 2015.
/s/ Dale Arends, Chair, Board of Supervisors......................Attest: Susan K. Lloyd, County Auditor

Motion by Altena, second by Ringgenberg, to set October 6, at 9:00 a.m. as the date and time for a public hearing upon the proposed 28E Agreement allowing use of portions of its property for a fiber optic network to be owned and operated by the city, with the County and
school district participating in its use and maintenance. A copy of the 28E agreement is available for review. Carried.

The Buena Vista County Board of Supervisors met in regular session on Tuesday, October 6, 2015 at 8:30 A.M. in the Boardroom with Chairman Arends presiding, and the following members present: Altena, Huseman, and Ringgenberg, and with Auditor Susan Lloyd as clerk for the meeting. Absent: Merten.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Arends, Huseman, and Ringgenberg. Nays: none. Abstentions: none.

Engineer Bret Wilkinson had been asked to look at what the cost would be to clear the snow at the LEC and East Richland Annex, rather than have the County contract for the services. Wilkinson estimated the cost to be $100/hour to cover all of the costs of labor, machines, fuel, etc. Sheriff Elston and Bldg/Grounds Supt. Steve Hammen were present for the discussion. Hammen stated that the LEC and the East Richland need to be open and available, so it would affect when Secondary Road could clean it. Sheriff Elston commented too that they have to keep the sally port open 24/7 and Secondary Roads might be needed to do other clearing in the County. Elston and Hammen recommended that the County continue to contract out for snow removal services of the LEC and East Richland parking lot, rather than having Secondary Roads clear the parking lots. Wilkinson doesn’t see any cost saving by having his department clear the snow, stated that it would be best to contract the services. The consensus of the Board was to have Hammen continue to receive bids for snow removal of the LEC and East Richland parking lots.

**Secondary Road Update:** They have finished the C13 shoulder work; they are going to be putting limestone on C49; the crews are still working on entrances, as they have had several requests; they have ordered pipe for replacing 2 culverts, but will wait for harvest to be further along; the Governor signed the Harvest Weight Proclamation on Sept 25, which allows a higher weight limit for 60 days; other operations are normal.

The Chair opened the **Public Hearing** on the **Fiber Optic 28E Agreement** with the City of Storm Lake and Storm Lake Public Schools, with I. T. Director Tyler Van Houten and 1 media present. The hearing was published in all three newspapers, as required. Motion by Altena, second by Ringgenberg, to close the public hearing. Carried. **RESOLUTION #2015-10-06-A**

**WHEREAS,** the Board of Supervisors has determined that it is in the best interest of the County’s residents to enter a fiber optics sharing arrangement with the City of Storm Lake and the Storm Lake Community School District, to provide high speed and efficient data communication between county offices, and with other units of government, and;

Motion by Altena, second by Huseman, to approve and authorize the Chair to sign Application for Partial Payment No. 3 for the DD #34 Lat 6 project, with L. A. Carlson Contracting, Inc., in the amount or $25,575.88. Carried.

Nurse Administrator Pam Bogue updated the Board on the flu clinic that was held at the Courthouse. There were 11-12 people vaccinated, the majority were employees. Bogue decided that a second day was not needed.

Nurse Administrator Pam Bogue met to revisit the remodeling plan of the Public Health Office. Several supervisors have toured the current office space, and agree that it would be best to make the proposed changes. Bldg/Grounds Supt. Steve Hammen stated earlier that he would budget for this remodel in FY’17. Motion by Huseman, second by Ringgenberg, to approve the proposed remodeling plan for the Public Health Office, to be done in FY’17. Carried.

I.T. Director Tyler Van Houten presented his proposal for updating the Public Meeting Room by adding electrical outlets and computer connections to be able to use this room for employee training on software, phones, etc. His plan is to repurpose the laptops that are also used for Precinct Atlas. The consensus of the Board was favorable, and this subject will be discussed again in a couple weeks.

Supervisor Meeting Reports: Ringgenberg attended the Board of Health meeting, and Early Childhood Iowa meeting; Arends attended the LEPC meeting with 7 counties yesterday, to discuss the current HAZMAT with the Sioux City Fire Department. Arends also attended the RC & D meeting last week, and will have RIDES and NW IA Planning coming up; Altena attended the Upper Des Moines Opportunity meeting last week.

Motion by Ringgenberg, second by Altena, to approve the minutes of 9/29, as corrected, today’s claims approval list, and the following reports: Storm Lake United September meeting, Lake Improvement Commission Agenda Packet. Carried.

Hear the Public: Tim Humes came in to comment on the Des Moines Water Works lawsuit. Humes predicts that the motion passed by the Board asking to have the Des Moines Waterworks lawsuit dismissed, will not happen. Humes states that the Board is using money to
obscure their actions or inactions, and states that they have moral and social obligations to be forthright with their constituency. Arends asked Humes what he suggested the County do. Humes stated that when the water is tested, and the nitrates are higher than the drinking water standard, something needs to change. Humes suggested growing alternative crops, as the world is changing. Humes doesn’t understand why the Board is not using the County Attorney to fight this lawsuit. Humes states that nobody knows how many hours have been spent on fighting this lawsuit, the public doesn’t know, and when will they know? Cloe Wolverton, President of the Garden Club, stated that while the Board is doing what they feel that they have to do, there are things that can be changed, even though they don’t admit they did anything wrong. Wolverton would like to see the Board attending meetings that are being held with farmers, to discuss the issues. Wolverton commented that there are a lot of little people out there that are concerned about this.

Drainage Attorney Gary Armstrong was present for his appointment. Motion by Ringgenberg, second by Altena, to go into closed session under Chapter 21.5(1)(c) of the 2015 Code of Iowa, to discuss strategy with counsel in matters that are presently in litigation or where litigation is imminent where its disclosure would be likely to prejudice or disadvantage the position of the governmental body in that litigation. Ayes: Altena, Arends, Huseman, Ringgenberg. Motion carried.

Motion by Huseman, second by Ringgenberg, to go out of closed session at 10:32 a.m. Carried.

There being no further business, motion by Huseman, second by Arends, to adjourn the meeting at 10:35 a.m. until Tuesday, October 13, at 8:30 a.m. for a special session. Carried.
Motion by Altena, second by Merten, to approve the utility permit for Mid-American Energy, Storm Lake, IA, for an 8,000 volt overhead primary electrical line along Hwy M50 between sections 10/15 of Providence Township, from 1 pole south of 620th St. to the CNN RR tracks. Carried.

**Secondary Road Update:** The crew is working on normal activities, still working on entrances, spot rock, brush cutting, and mowing; they will be working on ditch cleaning soon; they are working on installing the snow equipment for the winter season.

The Board received information from the insurance company regarding the audits that have been completed on the general liability and workers comp policies, and the invoice for an additional $18,992.00 that is due. The Board discussed whether to increase the exposures on the current policies to match the audit figures. Motion by Huseman, second by Altena, to leave the exposures on the current general liability and workers comp policies the same, and not adjust them based on the audited figures. Carried.

b) The Applicant shall then, no later than ninety (90) days prior to the start of the construction on the Project, furnish the Board with plats showing the location, including GPS coordinates, of the proposed construction and all proposed crossings of the Drainage District Infrastructure. If in view of such plats it is determined by the Board that such locations are in conflict with present or proposed Drainage District Infrastructure or the affirmative duty of the district to drain the land, and, for a justifiable and legitimate engineering reason, that a more desirable location is possible and the shift would not be in conflict with any state or federal requirements or siting restrictions, requirements or approvals, and/or the landowner(s) does not object to the relocation, the Applicant shall review such possible alignment changes with the Drainage Engineer. The Applicant and the Drainage Engineer shall work together in good faith to agree upon any alignment changes to be made pursuant to this Paragraph, taking into account the costs, benefits, feasibility, governing engineering principles, and the need to accommodate any present or proposed Drainage District Infrastructure and the affirmative duty of the District to drain the land. The decision of such independent third party licensed engineer shall be binding upon the parties. The Applicant shall pay all fees and costs of the independent third party engineer. Applicant acknowledges that under Iowa law it cannot interfere with the drainage of the land and will make design changes to accommodate drainage if a more desirable location is not feasible.

c) NO CONSTRUCTION IS TO COMMENCE ON ANY PORTION OF THE PROJECT WITHIN THE DRAINAGE DISTRICT RIGHT OF WAY WITHOUT APPROVAL OF A RESOLUTION BY THE BOARD OF SUPERVISORS STATING THAT ALL NECESSARY EASEMENTS AND AGREEMENTS ARE IN ORDER FOR THE PROJECT AND THAT PROJECT CONSTRUCTION CAN COMMENCE.

d) The Applicant shall give the Board two (2) weeks prior notice of their intention to commence construction on the Project in the County. Said notice shall be made in writing to the Drainage Engineer and the County Auditor. Notice cannot be given until an Easement for the Project has been approved by the Board and passage of a resolution by the Board of Supervisors stating that all necessary easements and agreements are in order for the Project and that Project construction can commence.

e) Two weeks after notice as provided in accordance with section 2(d) above and in compliance with these Requirements, the Applicant shall be allowed to construct the Project at the Applicant's own expense and the Applicant shall pay all costs of any reconstruction, relocation, modification, or reinstallation of the Drainage District Infrastructure which may be necessary as a result of construction of the installation for which the easement was granted.

f) If any portions of the Drainage District or Drainage District Infrastructure in or adjacent to the project construction area are damaged by the Applicant Parties as a result of the Project construction, the Applicant, at their sole expense, shall promptly repair such damage as directed by the Board, provided that such direction is not inconsistent with the requirements of 199 Iowa Administrative Code Chapter 9 or the terms of this easement. In the event the Applicant and the Drainage Engineer cannot agree as to the cause of and repair for any such damage, the Applicant and the Drainage Engineer shall mutually agree upon an independent, third party who is a licensed engineer in Iowa with experience in drainage to determine the cause of and repair for such damage. The determination of such independent third party licensed engineer shall be binding upon the parties. The Applicant shall pay all fees and costs of the independent third party engineer.

g) Subsequent to construction of the pipeline, all additional costs of Drainage District Infrastructure construction, maintenance, improvement or reconstruction caused by the presence of Applicant's pipeline shall be paid by the Applicant. To receive compensation under this paragraph, the Board shall either present an invoice specifying the additional costs caused by the presence of the Applicant's
pipeline which is accompanied by a written verification of the additional costs by the Drainage Engineer or reach an agreement with the Applicant on the project design and share of the cost to be paid by the Applicant during the planning of the Drainage District Facilities project.

h) After construction of the installation has been completed in accordance with all conditions under which the easement is granted, the Drainage District shall maintain its facility at its own expense, and Applicant, or the Applicant's successors in interest, shall maintain the installation at the Applicant's or successor's own expense. If the Drainage District subsequently undertakes any maintenance, improvement, or reconstruction of its facility which requires the modification, relocation, or reconstruction of the installation, the expense of such modification, relocation, or reconstruction shall be borne by Applicant or the Applicant's successors in interest.

i) The Applicant shall at any time subsequent to the commencement of construction, and at Applicant's sole expense, reconstruct or replace it's installation as may be necessary to conform to new grade or alignments resulting from maintenance, improvement or construction operations of the Drainage District. The Applicant agrees to do this within one hundred twenty (120) days of receipt of written request from the Board, or such longer time period as the Board may specify, without cost to the Drainage District. Such reconstruction or realignment of Applicant's improvements shall be made in accordance with and approved by the Board. If the Applicant fails to comply with the time period specified above or such longer period as the Board may specify, the Applicant agrees that the Board may seek injunctive or other appropriate relief against it, requiring specific performance of such reconstruction or realignment. Applicant agrees that it shall be liable to the Board for any and all expenses of seeking such relief, including reasonable attorneys' fees, in the event the Board is required to seek such relief pursuant to this Paragraph.

j) Applicant shall be responsible to remedy any damage caused by the Applicant Parties to the Drainage District and Drainage District Infrastructure arising from the operation, maintenance, or repair of the Project.

k) Subsequent to construction of the pipeline, except in cases of an Emergency, Applicant shall provide Board with a minimum of forty-eight (48) hours advanced notice of any work to be performed by the Applicant Parties within the right of way of the Drainage District. The Board shall have the right to have a Drainage Engineer present during any such work. If proper notice is given pursuant to this Paragraph, such work shall not be delayed by the failure of a Drainage Engineer to be present during such work. Applicant shall be responsible for all costs incurred by the Board and the Drainage District, including expenses of the Drainage Engineer related to the Applicant's work within the right of way.

l) As-Built Plans. As-built plans for all installations related to the Project shall be furnished to the Board within one hundred eighty (180) days of completion of construction that crosses Drainage District Infrastructure. Said plans shall include a plan, a profile and a location using the civil monument or GPS locations. All plans shall include exact GPS coordinates of all crossings of Drainage District Infrastructure. The Applicant agrees that the Board may seek injunctive or other appropriate relief against it, requiring specific performance of this Paragraph. Applicant agrees that it shall be liable to the Board for any and all expenses of seeking such relief, including reasonable attorneys' fees, in the event the Board is required to seek such relief pursuant to this Paragraph.
m) At all times, the Applicant shall allow the Board, its designee, and its contractors unrestricted access to the Drainage District Infrastructure for any and all needs of the Drainage District as identified by the Board or Drainage Engineer. The Board agrees that it will comply with One Call notification programs before performing any work on the Drainage District Infrastructure that may reasonably come into contact with, or otherwise impact the Applicant’s pipeline. Applicant may send a watchman at their own expense to observe the work. Work shall not be delayed if a properly notified watchman is not present.

n) If the Applicant fails on its own to properly repair any portion of the Drainage District or Drainage District Infrastructure that is damaged as a result of the Project as required hereunder, the Board may demand in writing that the Applicant repair same within thirty (30) days, or such longer period as the Board and Applicant may agree. If the Applicant fails to make such repairs within the 30 day period, or such longer period as the Board and Applicant may agree to, the Board may make such repairs and invoice the Applicant for the reasonable cost of such repairs. If the Board causes such work to be done, Applicant shall pay for the cost of the repairs within thirty (30) days of receipt of the invoice. If Applicant fails to pay within thirty (30) days, the Applicant shall be liable for all costs of the repairs which shall be collected by the County on behalf of the District in any court having jurisdiction. The Applicant shall be liable to County for reasonable attorney fees incurred by the County in pursuing payment.

3) Construction and Repair Standards

a) Examination. The Board shall appoint a Drainage Engineer to inspect and approve all construction and repair activities by the Applicant that impact the Drainage District and Drainage District Infrastructure. The Applicant Parties shall keep the Drainage Engineer informed of the work schedule on Drainage District right of way and any changes to such schedule. A Drainage Engineer shall be present on the site at all times at each phase and separate activity of the opening of the trench, the restoration of underground improvements, and backfilling. If, however, proper notice is provided to the Drainage Engineer, the work performed by the Applicant Parties shall not be halted or delayed by the failure of the Drainage Engineer or its representative to be present on the site. All reasonable compensation, wages, mileage, and other legitimate expenses for said Drainage Engineer involving work in the Drainage District right-of-way shall be incorporated into the Crossing Fee. Said Drainage Engineer will be responsible for inspecting all crossings of Drainage District Infrastructure and shall have the authority to require the Applicant Parties to excavate and expose the crossing of any Drainage District Infrastructure where the Drainage Engineer believes it prudent to visually examine same. Further, said Drainage Engineer has the authority to request that the County Inspector present pursuant to Iowa Code § 479B.20 suspend construction in the event of imminent risk to persons or property resulting from Applicant's or Applicant Parties’ activities. The Drainage Engineer shall specify to the Applicant and the County Inspector details relating to the imminent risk that the construction activity poses as well as a timeline for resuming activities. The Drainage Engineer and the Applicant shall work together in good faith with the County Inspector to determine whether any activity poses imminent risk to persons or property and the procedure and timeline for resuming activities.

169
b) Construction Specifications. All crossings of the Drainage District Infrastructure shall be constructed or repaired by Applicant Parties in accordance with pre-construction plans and specifications agreed to between the Applicant and the Drainage Engineer which shall not be contrary to the requirements of 199 Iowa Administrative Code chapter 9. The construction and maintenance of Applicant's installation shall be carried on in such a manner as to not interfere with, nor interrupt the function of, any Drainage District Infrastructure. The Applicant shall be liable for any damages, including any crop loss or damage to property, caused as a result of any interference or interruption caused by the actions of Applicant or Applicant Parties.

c) Interruption. In the event it becomes necessary to temporarily stop the normal flow of water in any Drainage District Infrastructure in order to permit the Applicant's construction, installation, and repair the following shall be done by the Applicant.

i) If the crossing involves a tile line, the replacement of tile with approved metal pipe or concrete pipe, in the manner approved by the Drainage Engineer, shall be performed as rapidly as possible. If the approved method of repair is impossible and the volume of water flowing in the tile is sufficient to create the possibility of crop loss or property damage, the Applicant will be permitted to temporarily block the tile line to prevent the flow of this tile water into the pipeline, or tile line ditch. In the event that this tile line is so temporarily blocked, the Applicant will be expected to provide sufficient pumping equipment to pump the impounded tile water across the construction ditch to the undisturbed tile line. Such temporary blockages of said Drainage District tile lines will be removed as rapidly as possible, and any tile repairs caused by this blockage will be immediately repaired at the Applicant's expense.

ii) If the crossing involves the crossing of a Drainage District open ditch that is carrying sufficient flow of water to make it necessary to place a temporary dam across said open ditch, such temporary dams may be constructed only upon approval from the Drainage Engineer and, if applicable, the permission of any private landowner owning property which must be accessed for the construction of such dam and the private landowner provides permission to place water that results from the dam on their property. The maximum elevation of this impounded water shall be determined by the designated Drainage Engineer and all excess water must be allowed to flow across the construction ditch through either a closed metal culvert pipe or by pumping. All temporary dam structures are to be removed as soon as the crossing is completed. The construction and removal of these dams to be in such manner that the smooth and efficient function of the drainage ditch is not impaired, with all costs and damages borne by Applicant.

d) Tile Repair Completion. The Applicant will make all permanent tile line repairs within ninety (90) days following completion of construction in the County, adjacent to, over, across, or beneath any Drainage District Infrastructure, taking into account weather and soil conditions, unless a different schedule is agreed to by the Parties. All tiles will be repaired with materials of the same or better quality as that which was damaged and shall be of a size approved by the Drainage Engineer based on current ISU Extension Service Drainage Standards, and be subject to final approval of the Drainage Engineer. Applicant shall take photographs of all repairs to Drainage District Infrastructure prior to backfilling or covering the repair. Photographs shall bear the exact GPS location of the repair and be provided to the Drainage District within 30 days of completion of the
repair. If the Applicant fails to make such repairs within the 90 day period, or such longer period as the Board and Applicant may agree to, the Board may make such repairs and invoice the Applicant for the reasonable cost of such repairs. If the Board causes such work to be done, Applicant shall pay for the cost of the repairs within thirty (30) days of receipt of the invoice. If Applicant fails to pay within thirty (30) days, the Applicant shall be liable for all costs of the repairs which shall be collected by the County on behalf of the District in any court having jurisdiction. The Applicant shall be liable to County for reasonable attorney fees incurred by the County in pursuing payment.

e) If there is evidence that any portion of a Drainage District or Drainage District Infrastructure, including but not limited to drain tiles under roads utilized by construction traffic and drain tiles crossed by construction equipment, has been damaged by Applicant or Applicant Parties, those damaged tiles or other Drainage District Infrastructure shall be repaired by the Applicant at the Applicant's expense at the end of the Project construction in the County in a manner acceptable to the Drainage Engineer. The Drainage Engineer and Applicant shall work together in good faith to determine the cause of any damage covered by this Paragraph. In the event the Applicant and the Drainage Engineer cannot agree as to the cause of any such damage, the Applicant and the Drainage Engineer shall mutually agree upon an independent, third party who is a licensed engineer in Iowa with experience in drainage to determine the cause of such damage. The determination of such independent third party licensed engineer shall be binding upon the parties. The Applicant shall pay all fees and costs of the independent third party engineer. Paved public roadways with adjacent tiles shall have the road and tiles bored under the each. No open cut shall be permitted on a public roadway with tiles, unless otherwise agreed to by the County Engineer or the Iowa Department of Transportation. Nothing in this Paragraph shall be construed to require the Applicant to take any action inconsistent with Department of Transportation ("DOT") rules and regulations. Applicant and Applicant Parties shall temporarily install sufficient cover or other measures for load distribution to avoid damage to the Drainage District Infrastructure.
f) Compaction, Rutting and Soil Restoration. The Applicant shall also be responsible at Applicant's expense to restore all land within the Drainage District right of ways to its pre-construction condition as near as is practicable. Standards to be followed at a minimum are the Land Restoration Standards found in Iowa Code section 479B.20, Iowa Administrative Code 199 IAC 9, and the Applicant's Agricultural Mitigation Plan. The Drainage Engineer and the Applicant shall work together in good faith to make an onsite inspection of the completed restoration and determine compliance with the Land Restoration Standards found in Iowa section 479B.20, Iowa Administrative Code 199 IAC 9, and Applicant's Agricultural Mitigation Plan. In the event that Applicant and the Drainage Engineer cannot agree as to compliance as set forth herein, the Applicant and the Drainage Engineer shall mutually agree upon an independent, third party who is a licensed engineer in Iowa with experience in drainage to determine compliance as set forth herein. The determination of such independent third party licensed engineer shall be binding upon the parties. The Applicant shall pay all fees and costs of the independent third party engineer.

g) Crossing Specifications. All crossings of Drainage District Infrastructure shall be constructed by Applicant in accordance with the following specifications:
i) CROSSING OF OPEN DITCHES

(1) Passage of the Applicant's installation in a horizontal plane five (5) feet below design grade of the drainage ditch, or deeper, as may be determined by the Board for a justifiable and legitimate engineering reason in consultation with the Drainage Engineer.

(2) The above depth is to extend to a point two (2) times the design base width of the ditch either side of the centerline of the drainage ditch, unless the existing base width is greater than the design base width. If the existing base width is greater than the design width, the depth is to extend to a point two (2) times the existing width.

(3) The preferred rate of slope for transition from a normal installation laying depth to crossings of drainage ditches shall not be steeper than 3:1. For a justifiable and legitimate engineering or constructability reason, a slope steeper than 3:1 may be approved by the Board in consultations with the Drainage Engineer.

(4) If such ditch crossings occur at points of outlets of Drainage District Infrastructure or within twenty five (25) feet of said outlets, such outlet facilities must be relocated to a point no less than twenty five (25) feet from such crossings. Such relocations shall be at the expense of the Applicant and as directed by the Drainage Engineer in his or her sole discretion.

(5) All crossing of open ditches shall be done by boring or open cut as agreed to by the Drainage Engineer following consultation with the Applicant. In determining whether boring or open cut is proper, the Drainage Engineer and the Applicant shall work together in good faith, considering the costs, benefits, feasibility, applicable engineering principles, and the interests of the parties. In the event that Applicant and the Drainage Engineer cannot agree, the Applicant and the Drainage Engineer shall mutually agree upon an independent, third party who is a licensed engineer in Iowa with experience in drainage to determine whether boring or open cut is proper, considering the costs, benefits, feasibility, applicable engineering principles, and the interests of the parties. The determination of such independent third party licensed engineer shall be binding upon the parties. The Applicant shall pay all fees and costs of the independent third party engineer.

ii) CROSSINGS OF DRAINAGE DISTRICT TILE LINES

(1) All proposed installations must be placed under the existing Drainage District tile lines, unless such installations can be placed above the existing Drainage District tile lines while maintaining a minimum of two (2) feet of separation between the installation and the existing Drainage District tile lines and a minimum of 48 inches of cover.

(2) The minimum separation between the bottom of Drainage District tile lines sized in accordance with current ISU Extension Drainage Standards and installed with the top of existing tile being maintained, shall be two (2) feet, unless determined otherwise for a justifiable and legitimate engineering reason, by the Board in consultation with the Drainage Engineer.
(3) Drain tiles may be crossed by either an open cut or by utilizing a bore. However, for open cut crossings, the Applicant shall replace the Drainage District tile with reinforced concrete pipe of sufficient size determined by the Drainage Engineer in accordance with current ISU Extension Drainage Standards. The concrete pipe strength is at the reasonable discretion of the Drainage Engineer but the minimum pipe strength is to be 20000 (Iowa Department of Transportation approved) with the standard tongue and groove joints. The Pipe is to have a minimum of three (3) bolt-type connectors at each joint. The pipeline shall be backfilled and compacted prior to placement of tile with 6 inches of 2" crushed stone cradle rock being placed under the tile. Dual Wall HDPE pipe may be substituted for concrete pipe at the reasonable discretion of the Drainage Engineer and installed with 6 inches of 2" crushed stone cradle rock being placed under the tile and backfilled in accordance with the manufacture installation requirements. In the event the Applicant and the Drainage Engineer cannot agree on the requirements or conditions of this Paragraph, the Applicant and the Drainage Engineer shall mutually agree upon an independent, third party who is a licensed engineer in Iowa with experience in drainage to determine what changes should be made pursuant to this Paragraph, taking into account the costs, benefits, feasibility, governing engineering principles, government approvals, and the need to accommodate any present or proposed Drainage District Infrastructure and the affirmative duty of the District to drain the land. The decision of such independent third party licensed engineer shall be binding upon the parties. The Applicant shall pay all fees and costs of the independent third party engineer.

(4) The length of tile to be replaced by any of the above alternates is as follows:

(a) Eight (8) inch tile and smaller: Six (6) feet either side of the top of trench excavated for the installation of pipeline, measured at right angles to the centerline of the crossing location.

(b) Ten (10) inch tile or larger: Ten (10) feet either side of the top of trench excavated for the installation of pipeline, measured at right angles to the centerline of crossing location.

(5) If the Applicant's installation disturbs or requires replacement of any portion of a tile drain less than twenty inches in diameter, and a portion of such drain will remain wholly or partially exposed after the construction project has been completed, the portion which is to remain exposed and not less than three feet of such drain immediately on either side of the portion which is to remain exposed, shall be replaced either with steel pipe of not less than sixteen gauge or polyvinyl chloride pipe conforming to current industry standards regarding diameter and wall thickness.

4) Board's Representations, Warranties and Covenants

i) Notice of Repair, Improvement, Maintenance or New Construction. The Board shall give the Applicant at least ninety (90)
days written notice of the proposed repair, improvement, maintenance, or new construction of drainage facilities in a Drainage District that the Board believes may impact any of the Project facilities. The Board shall also give at least twenty-four (24) hours verbal (via telephone) notice of emergency maintenance repairs in the Drainage District that may expose, cover up or disturb any installation belonging to Applicant, so that Applicant may arrange to protect same. Emergency (24 hour) notice shall be given by calling Applicant or at such other number provided from time to time to the Board by the Applicant. The Board also agrees that it will comply with One Call notification programs before performing any work pursuant to this Paragraph.

ii) Limitation on Liability. So long as Applicant receives the notice set forth in Section 4(i) above, the Board and the Drainage District shall have no responsibility for damages to Applicant’s property occasioned by any construction or maintenance operation of the Drainage District subsequent to Applicant’s installation, except for damages resulting from the willful misconduct or gross negligence of the Board and/or its representatives or agents.

iii) Applicant shall be responsible for actual property damage caused by constructing and maintaining the Project. These damages are separate and distinct from any payment made to the Drainage District or Board for expenses, crossing fees or easements. The determination of these damages shall be made by the Board exclusively; provided, however, that Applicant maintains its right to seek judicial review of any such damage determination of the Board in accordance with Iowa Code Chapter 468. Damages shall not be duplicative of damages claimed by and paid to landowners. Payment shall be made by the Applicant within thirty (30) days of the Board’s determination.

5) Notices

7) Miscellaneous Provisions

a) Assignment. The Applicant's interests are transferable. However, assignee is required to comply with all Requirements set forth herein.

b) Binding Effect. These Requirements contained herein shall be binding upon, and inure to the benefit of, the Applicant, Drainage Districts and their respective heirs, successors (by merger, consolidation or otherwise) and permitted assigns, devisees, administrators, representatives, lessees and all other persons or entities acquiring all or any portion of the Project, any lot, parcel or any portion thereof within the Project Area, or any interest therein, whether by sale, operation of Law, devise, or in any manner whatsoever.

c) Iowa Law. The Application and Requirements are entered into under the laws of the State of Iowa, and Iowa law shall apply to the interpretation hereof. Any legal action to enforce or interpret these Requirements or Application shall be brought exclusively in Iowa District Court in Buena Vista County, or, if there is a basis for federal question jurisdiction, in the United States District Court for the Northern District of Iowa, and the Parties hereby waive all objections to the jurisdiction and venue of these courts.
d) Severability. If any provisions of the Application and Requirements are determined to be unenforceable, invalid or excessive, the Application and Requirements can thereafter be modified, to implement the intent of the Applicant and Board to the maximum extent allowable under law and the remainder of the Application and Requirements shall remain unaffected and in full force and effect.

e) Agent for Service of Process. The Applicant shall appoint an agent for service of process in Iowa and register such address with the Secretary of State. Applicant shall maintain Commercial General Liability ("CGL") Insurance in a limit of not less than $10,000,000 each occurrence. This required minimum limit may be met through a combination of primary and excess liability policies. The CGL Insurance shall cover liability arising from premises operation, independent contractors, personal injury and liability assumed under an insured contract, including the tort liability of another assumed in a business contract. Applicant shall obtain coverage for liability arising from pollution explosion, collapse, underground property damage caused by Applicant, its employees, contractors, representatives, and agents to the extent of its indemnity obligations hereunder.

a) Included in the CGL Policy or a separate Policy, Grantee must have insurance for sudden and accidental environmental pollutant liability caused by Applicant, its contractors, representatives, and agents in
connection with the project and use of the easement. Coverage shall be maintained in an amount of at least $10,000,000 per loss event.

These limits shall be adjusted every 10 years to reflect the changes over that time in the U.S. Bureau of Labor Statistics' CPI-U index.

vi) Remedies available to the Board: In the event that Applicant should fail to comply with any provision of the insurance section of this ordinance, then the Board may provide Applicant with a written notice by service of process as allowed by the Iowa Rules of Civil Procedure upon Applicant or by certified mail upon Applicant at Applicant's last known address. Such notice shall specify the default and shall allow Applicant 30 days to cure the default and/or contest that a default exists. In the event that Applicant fails to cure the default within such time,

the Board may seek an injunction from the Iowa District Court for Buena Vista County against the Applicant concerning the operation of a pipeline and shall be entitled to enjoin any and all operations until such time as the Applicant shall cure said default.

The Board shall be entitled to collect from Applicant all reasonable attorney fees and expenses relating to any injunction as arising under this subsection.

The above remedies are not exclusive. The Board shall be entitled to use or devise any other remedy to the Board at law or in equity.

vii) Proof of Insurance: Applicant shall cause certificates of insurance evidencing all of the above insurance policies and coverage to be provided promptly to the County upon request by the Board but no more than one time annually.

All of the above required insurance policies shall reflect that the Board will receive thirty (30) days’ prior written notice of cancellation in coverage and shall reflect that the insurer has waived any right of subrogation against the Board.

viii) Term: These insurance requirements shall remain in effect for the term of the easement.

g) Timely Performance. Time is important in the performance of each and every obligation to be performed by the Applicant and Board hereto.

h) Nothing in the Application and Requirements shall be interpreted to restrict the Drainage District's use and enjoyment of the easement created by Iowa Code section 468.27. Unless otherwise stated, the Drainage District's easement shall be 150 feet on either side of the center line of the drainage improvement. The Drainage District maintains all rights of ingress and egress to the easement and the drainage improvement.

i) Applicant agrees to pay a one-time Crossing Fee of $7,500 per crossing. This fee shall only be deemed to reimburse the Drainage District for the easement granted at a crossing, publication costs, engineering costs, inspection costs,
and legal services related to a crossing. Said fee shall be paid in conjunction with the issuance of the Easement.

j) The Easement agreed to by the Board are subject to existing regulations and statues, which may be promulgated or enacted.

i) This shall include, but not be limited to, Applicant agreeing to comply with land restoration rules and requirements set forth by Iowa Utilities Board in 199 Iowa Administrative Code Chapter 9 and requirements of Iowa Code 479B.20 and in connection with abandonment, 49CFR part 195 and Iowa Code Section 479B.

k) Any requirement of this Easement as to design specifications or time periods may be altered or amended by agreement in writing between the Board, in consultation with the Drainage Engineer and Drainage Attorney, and the Applicant.

1) The Easement is valid so long as Applicant is in compliance with its terms. If the Applicant is not in compliance with the terms of the Easement, the Applicant agrees that the Board may seek injunctive or other appropriate relief against it. The Applicant shall be liable to the Board for any and all expenses of seeking such relief, including reasonable attorneys' fees, in the event the Applicant is found by a Court to be in material, uncured breach of a specific requirement of the Easement.

Case Management Administrator Alicia Gatzemeyer presented some options for the Targeted Case Management Program. Gatzemeyer explained what would happen if services were to end 12-31-15. She also informed the Board that some of the October bills have been delayed. Gatzemeyer will check to see if other counties have had claims delayed. Merten will also check into this when he attends ISAC this week. Consensus of the Board was to wait until the 12-1-15 meeting.

There being no further business, motion by Merten, second by Altena, to adjourn the meeting at 12:15 p.m. until Tuesday, December 1, at 8:30 a.m. for a regular session. Carried.
The Buena Vista County Board of Supervisors met in regular session on Tuesday, December 1, 2015 at 8:30 A.M. in the Boardroom with Chairman Arends presiding, and the following members present: Altena, Huseman, Merten, and Ringgenberg, and with Deputy Auditor Leigh Madsen as clerk for the meeting.

Unless otherwise indicated, all of the following motions offered at this meeting were carried with the following vote: Ayes: Altena, Arends, Huseman, Merten, and Ringgenberg. Nays: none. Abstentions: none.

I.T. Director Tyler Van Houten presented the Safety Committee’s request for signs to be posted showing the days worked without lost time. The estimated cost for 15 signs is approximately $300. The consensus of the Safety Committee was to have the signs purchased. The concern is to have individuals designated to update these signs in the 15 locations, to be consistent
everywhere. Van Houten will take it back to the Safety Committee to discuss further what they would like the signs to say.

Bldg/Grounds Supt. Steve Hammen presented his **Department update**. Hammen showed pictures of the completed boiler project, which is all in place and working. Hammen's next project will be upgrading the Courthouse elevator. Hammen has received 2 bids, to bring the elevator up to Code. The bid from Otis is $60,000 and the bid from O'Keefe is $76,443. Hammen stated that in order to be able to do the elevator upgrade, it will take 3 weeks to do, and the elevator would not be available for those three weeks. O'Keefe offered to do the job in two weeks. The additional cost to get the job done in two weeks would be about $5,800. Hammen stated that he also has to put in a fire alert around the elevator, which he has bids from Pat Peterson for $3,293.92, and Tyco for $6,265. Hammen’s third project would be for the wall in the Public Health Office, which is at about $2,500. The last thing Hammen proposed is a new tractor mower and snow blower unit.
